RETIREES FROM LAW OFFICES AFTER 50 YRS.

One of the most prominent figures in Adams County legal circles was honored at a dinner Thursday evening in the Hotel Gettysburg in recognition of 50 years of service in the same office.

Miss Nina G. Storrick, whose name appears on more legal documents filed in the courthouse than any other legal secretary in the history of Adams County, Thursday ended a half-century of service in the offices of Brown, Swope & McPhail, formerly Swope, Brown & Swope, Baltimore St.

"When a client comes into the office and asks, 'Are you still here?' it's time to retire," Miss Storrick told 70 guests at the dinner marking her retirement from active service. Richard A. Brown, senior partner in the firm, said, however, that she will continue "of counsel" to the firm.

STARTED IN 1914

"Miss Nan," as she is known throughout the county, began her "legal" career Nov. 19, 1914, when she joined the firm of the late J. Donald Swope as his secretary. Atty. Swope's father, Judge Samuel McCurdy Swope, retired from the bench two years later and rejoined the firm of Swope & Swope, which continued until 1937 when Atty. Brown became a member and the name was changed to Swope and Brown.

In 1940, Donald M. Swope became the third generation of the family to practice law in the same office and the name was changed to Swope, Brown and Swope. It became Brown, Swope & McPhail in 1956 with the admission of John A. McPhail into the firm. H. Thomas Pyle, who joined the firm in 1956 as an associate, was named a partner in 1964.

SOME WORK LEFT

"Miss Nan" recalled some of the numerous assignments she fulfilled over a period of 50 years, among them some of the divorce proceedings she recorded. She said Thursday she could not consider herself completely "retired" until she transcribes her notes on a recent testimony. She recalled, also, that she went to work in the Swope offices the same year Judge W. C. Sheely became an office boy in his late father's office.

The daughter of the late William C. Storrick, teacher, writer and historian, whose interest in the Civil War led to his reputation as one of the outstanding authorities on the Battle of Gettysburg, "Miss Nan" recalls her association with many of the lawyers who were practicing in Adams County in the early part of the century. Among these were Attorneys McClean, Williams, Butt, McPherson, Duncan, Neely and McSherry.

Beyond her "counseling" duties, Miss Storrick has announced no special plans for retirement, except to say that she plans to "keep busy."

TELLS OF NEW TV PROGRAMS

Educational television programs planned by the South Central Broadcasting Council for elementary pupils were outlined Thursday evening by Miss Sally Drake, Hershey, for parents and teachers of the Upper Adams School System at a PTA meeting in the Bendersville Elementary School.

Miss Drake said that science and mathematics will be televised for Third and Fourth Grades and physical education programs will originate at the Hershey studios for Fourth, Fifth and Sixth Grades. Current events will be broadcast each Monday for Grades 4-12, with additional programs for Grades 9-12.

Ninth Graders will study Pennsylvania history and government and Tenth Graders will receive American biological science. American literature from Franklin to Frost will be offered to Eleventh Graders and Twelfth Graders will study astronomy by television. A course in humanities will be offered at night for parents on Channel 33. Teachers and pupils will be asked to report their reactions to the Hershey studios for evaluation of the programs, Miss Drake said.

John Hoffman presided at the meeting which was attended by approximately 50 parents and teachers.

FOUR INJURED IN ACCIDENTS ON THURSDAY

Four persons were injured, none seriously, in two auto accidents investigated by state police from the local substation Thursday afternoon.

Marie Smith, 21, Emmitsburg, suffered scalp lacerations in an accident seven miles south of here on the Emmitsburg Rd. at 3:15 Thursday afternoon. She was treated by a Gettysburg physician. Police said she was a passenger in a car being operated north by Fred Nimtz, 38, Gettysburg R. 2, which skidded on the wet highway into a southbound car driven by Nicola Lopikockij, 31, 326 S. Washington St. Damage to the two autos was estimated at \$400.

CRASH ON RT. 30

Three persons were injured, but none seriously enough to seek medical attention, in a three-vehicle accident three miles east of here on the Lincoln Highway at 3:45 Thursday afternoon.

State police said Virginia E. Logue, 51, Hagerstown, traveling west, had stopped for a school bus halted ahead. Paul Holland, 38, McKnightstown, operating a Commonwealth of Pennsylvania Department of Highways truck west, had halted his vehicle behind the car. A Morrison Vending truck operated by William Murphy, 36, Hanover, also headed west, was unable to stop quickly enough and struck the rear of the Department of Highways vehicle driving into the car. Damage totaled \$700. Murphy suffered a laceration of the lower lip; Holland had a bruised left arm, and Adrian Myers, Idaville, a passenger in the highways truck, had a bruised head.

McNamara Says Closing 95 U.S. Military Bases, "Absolutely Irrevocable"

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara says his decision to shut down 95 obsolete and surplus military bases and plants is "absolutely, unequivocally, without qualification irrevocable."

This statement by the strong-willed defense chief in announcing the decision Thursday allowed small hope that any of the anguished cries from congressmen, governors and mayors would change his mind.

The only thing that might, McNamara told a news conference, would be some new evidence "and the chances of that are damned small."

574 DECISIONS

"We have made 574 decisions in this area in the last 3 1/2 years, and we have not changed one yet," McNamara asserted. The latest stroke of McNamara's economy scalpel cut at

CONSTITUTION OF "AG" GROUP IS EXPLAINED

Adams County's Agricultural Extension Association at its 49th annual meeting Thursday night in the New Oxford Fire Hall changed its constitution to extend its scope far beyond strictly agricultural interests.

"Up-dating" of the constitution began with Article II, covering the objectives of the organization. Previously the article stated: "The sole object of this organization shall be to assist the extension representatives in extension work and to aid in the development and execution of such a program for the advancement of agriculture, the home and rural life of Adams County."

Thursday night the last part of the sentence was changed to read: "To aid in the development and execution of such a program for the advancement of Adams County, and its agricultural interests." NOT "FARMERS ONLY"

Article Three had stated that any Adams County "interested and willing to aid in the development of the rural life of the county is considered a member." The association Thursday struck out the words "rural life" and replaced that term with the word "resources," thus making everyone in the county a potential member.

A similar change was made in Article VIII which said that mailing lists maintained by the Extension Service are for "the purpose of informing farmers and homemakers of extension information." The 150 present for the meeting took out the words "farmers and homemakers" and inserted instead: "The people of" (Continued On Page 2)

FORTENBAUGH LECTURE GIVEN BY C. ROSSITER

"Policies in the future will be at the center, candidates for president will be chosen from the center and will adhere to the center, and elections will be won or lost at the center," declared Clinton Rossiter, the Fortenbaugh Memorial lecturer, speaking on the topic "President and Congress: 1964" Thursday evening in Christ Chapel at Gettysburg College.

Rossiter said that in the past generations we have adhered to a "middle of the road" type of politics. Presidential campaigns have been aimed toward the uncertain votes in the center. With this central tendency in mind the parties have nominated candidates who were unifiers and harmonizers.

Concerning the parties themselves Rossiter felt that only between 1876 and 1896 were they balanced. "Ever since F. D. Roosevelt the Democratic party has taken the lead, and today the strategy of this party is one that thinks like the majority — one of getting out the truth. On the other hand the Republican party plots like a minority party."

ALL ARE EQUAL

According to Rossiter two developments have been gaining momentum concerning the presidency. First, there is a permanent hierarchy of the presidency over Congress. "All three branches of our government are equal, but one, namely the presidency, is more equal than the others." Why is the presidency superior to Congress? Rossiter explained, "The function of the presidency is one of action, whereas that of Congress is one of delay. Throughout our system of a society executives are on the offensive, and as a counterbalance legislators are on the defensive. The most basic power of Congress is that of negation."

The second development is presidential liberalization which creates a new tension against congressional conservatism. "Since Roosevelt," according to Rossiter, "our government has" (Continued On Page 3)

The document on non-Christians, which says the Jews must never be considered cursed or specially blamed for the crucifixion of Christ, was approved with 1,657 prelates in favor, 242 in favor but with reservations and 99 opposed.

The declaration also makes overtures to the Hindus, Buddhists and Moslems and restates the Roman Catholic Church's opposition to discrimination or harassment on account of race, color or creed.

CONSTITUTION

(Continued from Page 1)

Adams County.
Thus the members opened the Extension Association to all of the people in the county instead of just the farmers.

HEAR DR. HOWES

Dr. John Baxter Howes, professor of rural church, Wesley Theological Seminary, Washington, the principal speaker at the meeting, commented in his talk that the changes made in the constitution of the local county group "is in itself a sign of the times. The changes you made reflect the fact that rural life is now too narrow a term for what is occurring in our countryside." Three other changes were made in the constitution. The president of the county 4-H Senate was made an ex-officio member of the executive committee; directors were limited to three consecutive terms and directors who miss four consecutive meetings without an excuse will be asked to resign.

6 DIRECTORS ELECTED

Six directors were elected for three-year terms; Mrs. Paul Mid-dour, York Springs R. 1; Mrs. Allen Weikert, Gettysburg R. 2; Paul Fissel, Biglerville R. 1; Robert C. Lott, Aspers R. 1; Paul G. Pitzer, Biglerville R. 1, and Ralph W. Tyson, Gardner's. The latter three were re-elected to their posts.

Pitzer, who is president of the association, presided at the meeting. The dinner was served by the Ladies' Auxiliary of the New Oxford Fire Co. Martha Ritter, a 4-H Club member, read "Barbara Fritchey."

Myles Starner gave the annual secretary's report; Stuart Luca-baugh, the treasurer's report. Francis Weikert presented the report for the nominating committee. Linda Bair and James Rohr-baugh, 4-H Club members, led group singing. Donald Bair, president of the county 4-H Senate, spoke on "Growing With 4-H."

ZETTLE SPEAKS

Frank Zettle, former county agent here and now assistant director for extension in the state, spoke of "Our Legislative Heritage." Thomas Jefferson sponsored the first legislation specifically for farmers, he said. Lincoln in 1862 established the land grant colleges. The Hatch Act in 1887 established the research stations. This year, Zettle said, marks the 50th anniversary of the establishment of agricultural extension as a three-way cooperative endeavor between the federal government, the state governments and the county governments.

Reports were presented by County Agent Thomas E. Piper, Associate County Agents Duane G. Duncan and Joseph F. Lutz, extension home economist Mrs. Helen D. Tunison and assistant Mrs. Sheila Arnold and area marketing agent Laurence Yager. Introduced were the office secretaries, Mrs. Hope White and Miss Nadine Richardson.

RECORD OF BUSY YEAR

The reports showed a total of 922 meetings were held for the various extension groups with a total attendance of 32,558. Farm and home visits by the extension workers totaled 1,842.

Reports showed 1,791 complete soil analysis tests completed for counties and 993 lime requirement tests conducted. Seven hundred twenty-five boys and girls, ranging in age from 10 to 21, took part in the 4-H activities and completed 1,032 individual projects. Sixty-eight older youths took part as junior leaders. Fourteen older youths received special training in citizenship at the National 4-H Center and presented a program to 260 other club members at 11 different meetings.

County Agent Piper noted that, when Congressman Asbury F. Lever introduced the legislation in 1914 that established the extension program, the congress-man said:

"We have accumulated in the agricultural colleges and in the Department of Agriculture sufficient information, which, if made available to the farmers of this country and used by them, would work a complete and absolute revolution in the social, economic and financial condition of our rural population." Piper said: "The accuracy of Congressman Lever's prophecy is well known. American farms are the most efficient in the world and all Americans have enjoyed the benefits. Progress however requires change. Extension has and will continue to adjust its organization, programs and methods to meet the changing needs of the people."

REVIEWS PROBLEMS

Dr. Howes told the group: "Each year there are four million babies. The number is beginning to slacken a bit, but soon the children born in 1947 will be marrying and procreating. All of these people are coming into the world and we have to do something for them. Employment is something we must consider for the future. Young people out of work create an explosive situation. You can help in your own communities to make more employment possible for your own young people. One way is to do more of the processing in your own county. We must find ways to bring industry to our own communities, for we are losing our best young people to the cities."

Will Charge Driver After Crash Here

Damage totaled \$875 when two cars collided Thursday afternoon at 12:10 o'clock in the intersection of West and W. High Sts.

Ford Is Expected To End Production This Evening

DETROIT (AP) — The Ford Motor Co. may cease production of all its automobiles by tonight because of what it calls local-plant strike tie-ups.

The last producing link in Ford's lines of cars, the Mustang, will be out of action after the anticipated closing tonight of a Milpitas, Calif., assembly plant, Ford said.

Normally, Ford makes 10,000 cars a day.

A Ford spokesman at company headquarters in Dearborn confirmed that the Mustang has been the only car produced since Tuesday.

AFFECTS THOUSANDS

With between 75,000 and 80,000 men laid off, Ford has been employing only about half its total work force this week.

The company has blamed nine United Auto Workers local-plant strikes that began Nov. 6 for the layoffs. The strikes had been over local agreements supplementing the national Ford-UAW agreement which was reached Sept. 18.

Agreements have been reached at all but three of the nine plants.

One plant still on strike is the key parts plant in Sterling Township, Mich. The other two are car and truck assembly factories in Wayne, Mich.

M. M. Cummins, Ford labor relations director, said Thursday the effects of the three strikes would be sufficient to halt all Ford production by next week.

Later, a Ford spokesman said the expected closing tonight of the Milpitas, Calif., plant would end all car production.

Top level negotiations aimed at settling the Sterling Township strike were scheduled to resume today. Cummins and Ken Bannon, director of the UAW Ford department, met Thursday in a first attempt.

(Continued from Page 1) gone through a rapid period of change which adds up to 'revolution' composed of separate changes to which Johnson points with pride and Goldwater shows contempt. Rossiter stated, "We have moved a long way from welfare as an individual to welfare as a community; we have moved from a society of easy acceptance of life to one of equality of race; we have moved from a world of isolation toward one of deep involvement with other countries."

Viewing the past presidential election, Rossiter said that "Johnson was the 'perfect' candidate of the Democratic party. L. B. J. was a stalwart. He was at the center of politics, emphasized unity, was a southerner in the south and a westerner in the west. He concentrated on securing the votes from the larger states." About Goldwater Rossiter said, "He was the most imperfect and worst possible candidate for the Republican party. He was an ultra-conservative running for a liberal office."

decided not to hold a vote on the declaration at this session.

American bishops, joined by Canadians and some Europeans, then sent the Pope a petition signed by 1,400 prelates.

Without a vote, the declaration lies over until the council reconvenes, possibly in 1966. In the interim conservative opponents hope to scuttle the declaration.

TIME TO STUDY

In announcing postponement of the vote Thursday, Cardinal Tisserant had said a number of bishops wanted more time to study the document. Today he told the council that the Pope considered the presidency's decision to delay the vote in conformity with council regulations "to respect the rights of the fathers to have adequate time" to examine such important documents.

Therefore, Cardinal Tisserant was quoted as saying, the declaration would be dealt with at the next council session, possibly as the first matter on the agenda. The next session is expected to be held late next year or in 1966.

REVOLT A SURPRISE

The revolt of the bishops was the most sensational development since the council first assembled on Oct. 11, 1962.

Pope Paul reportedly heard another plea to allow a vote from Joseph Cardinal Frings of Germany Thursday night when the Pope met for more than an hour with a large group of cardinals.

A source who helped write the document said it was ready for a vote more than a month ago, after being revised in accordance with the debate on it last September.

ly-generation intercontinental ballistic missiles — liquid-fuel, relatively slow-reacting Atlas E and F models and Titan I hydrogen missiles — will be retired from 14 bases by mid-1965.

Although these ICBM's have never been fired, McNamara said they "have served their purpose" — giving the United States a stronger deterrent while the force of fast-firing, solid-fuel Minuteman missiles was growing.

650 MINUTEMEN

There now are 650 Minutemen in place, each mounting a hydrogen warhead and each able to strike at least 6,300 miles away. By next summer, there will be 800 of them, plus 54 Titan II missiles in underground, blastproof holes.

California led the states with 13 bases ticketed for closing or consolidation, including merger of the Mare Island and San Francisco shipyards under a single commander.

New York will lose seven installations, including the Brooklyn Navy Yard and the Brooklyn Army Terminal. Texas and Washington State follow with four bases each.

OFFER NEW JOBS

As he has done in past base-closing announcements, McNamara said the government would offer 'new job opportunities to all career employees affected, would pay for moving them to a new job and would retrain them if necessary.

When the defense secretary appeared before a crowded news conference to disclose details, the newswires already were alive with reports from congressmen and others on specific bases, and with the first of a stream of protests and denunciations.

It was apparent McNamara was aware of the mounting criticism and he reacted with some heat to charges that his actions were politically motivated.

Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

FIFTEEN YEARS AGO

Miss Marion Lorraine Thomas, daughter of Ner Clifford Thomas, of Biglerville, and the late Mrs. Nettie Heiges Thomas, was married in St. Paul's Lutheran Church, Biglerville, at 4:30 o'clock Saturday afternoon to Charles William Harbaugh, son of Mrs. Jeannette Harbaugh, 426 West Middle street. The Rev. H. W. Sternat performed the double-ring ceremony and the ceremonial consecration of the rings, assisted by Rev. Dr. Donald Heiges of New York, a cousin of the bride.

Cp. William M. Baumgardner, Fairfield, who recently arrived at Headquarters First Corps in Kyoto, Japan, has been transferred to the 56th Signal Battalion.

Corporal Baumgardner is a veteran of more than 20 years service. He entered the Army at Baltimore in March, 1926.

His mother, Mrs. E. J. Baumgardner, resides at Fairfield.

Mr. and Mrs. Forrest Bream, Biglerville R.D., entertained Sunday evening in celebration of the third birthday anniversary of their daughter, Janet Marie. Those attending included Mr. and Mrs. George Bream and daughter, Sherry, Mr. and Mrs. George Olinger and children, Barton and Paula, Mr. and Mrs. Glenn Black and children, Carolyn and Larry, Mr. and Mrs. Kenneth Bream, Mr. and Mrs. Stanley Bream and children, Judy Ann and Boyd. The guest of honor received many gifts. Refreshments were served.

Robert B. Fortenbaugh, son of Dr. and Mrs. Robert Fortenbaugh has begun work as research chemist in the laboratory of the Calco Chemical Division of the American Cyanamid company at Bound Brook, N.J.

Mr. Fortenbaugh recently completed all requirements for the degree of doctor of philosophy in chemistry at the Johns Hopkins university. He and his family have moved to 10 Koehler Drive, South Brook, N.J.

Gettysburg National Park officials today gave warning that persons "spotlighting" deer and other animals on the battlefield at night may find themselves liable to prosecution.

Pointing out that the national park is also, in a sense, a game preserve Dr. J. Walter Coleman, superintendent of the park, warned that there is a regulation against frightening game in the park; and that there are laws against carrying guns and shooting game in the national park.

The Private Duty Nurses Association of the Warner hospital will sponsor semi-private room 138 in the Christian H. Musselman annex at the hospital. Mrs. Harry E. Price, president, announced today.

Mrs. Price said the organization will purchase additional furnishings of the room and will repaint, redecorate and replace furniture in the room when needed.

Thirty-eight nurses are members of the association.

"Our Hearts Were Young and Gay," by Cornelia Otis Skinner and Emily Kimbrough, will be presented by a student cast at Gettysburg high school next Thursday and Friday. Curtain time is 8 o'clock both evenings.

The story has to do with the summer travels abroad of two teen-age girls and the amusing predicaments in which they frequently find themselves.

PAYING ATTENTION TO LIFE

It is an obvious fact that the closer one attends to his or her business the more successful he, she and it are sure to be. Application is one of the most valuable of all profitable virtues. Men and women give their most valuable years to the thing in which they are most interested, often neglecting the most important of all pursuits — life itself. The result, in many cases, is that life is over before it has even been lived!

The humblest and poorest are really born into a world of wealth and plenty — the inheritance from a kind Providence. We are controlled by our natural desires, but spread all about us are the opportunities for an appreciation of the rich gifts of nature. The privilege of choice and selection is set before us. Life for us is exactly what we decide to make it.

We have to pay attention to life in order to make it enjoyable. Too many just let it slip away, as though unaware of its existence. Merely to accumulate wealth or to attract attention and become famous is not to live. To happily live is to adopt, and adapt, Nature to one's activities, and to extract every bit of its rare aroma and substance.

Speaking of the evaluation of life, Montaigne said: "There is a kind of husbandry in knowing how to enjoy it. I enjoy it double to others. For the measure in enjoyment dependeth more or less on the application we lend it."

In the schoolroom we learned by paying attention to the instructor. It's the same with life. There are natural instructors all about us, but we must pay attention to them, listen, absorb their lessons, delight in them, and take them to heart. We must take time to think, to meditate and to relax. Life has always much more to give than we ever take advantage of, by taking.

Happiness and satisfaction are measured out to us only in proportion as we choose to give them out. The moment that we become miserly in our tastes and hoardings we lose the warmth of life's happiest and most inspiring rays of life. By paying attention to life, it pays attention to us — enriching us mentally, physically and spiritually.

LONESOMENESS
The house was very pretty and the furnishings were trim. But little joy was in it all without the voice of him. And elsewhere was another where things of beauty were, But all was ache and anguish without the voice of her.

Time was she thought possession was all she'd ever need, That given things to cherish for nothing more she'd plead. Time was he thought that beauty was made of silk and gold. Now both of them are lonely and drab is all they hold.

We toil to gain possessions; we give our thoughts to things. To find at last that having but little comfort brings. For joy is in the sharing not in the stuff we own. And nothing less is lovely that must be kept alone.

"Miss Nan" Honored At Dinner

Miss Nina G. Storrick, secretary in the firm of Brown, Swope and MacPhail, was honored Thursday night at a dinner in the Hotel Gettysburg marking her retirement from a "legal career" of 50 years. Members of the law firm pictured here are, left to right, John A. MacPhail, Donald M. R. D. Anderson (right, above) of Hanover, representative of the Sears-Roebuck Foundation, presented a check for \$2,000, to President C. A. Hanson at Gettysburg College on Thursday.

Unrestricted grants totaling \$700,000 are being distributed this week by the foundation under a new program of aid to privately supported colleges and universities. Mr. Anderson stated. Grants to the 47 participating colleges and universities in Pennsylvania total \$86,000. Purpose of the program is systematically to help institutions of higher learning meet their financial needs. Altogether, more than 600 colleges and universities from coast to coast will receive foundation grants. They are unrestricted to allow the schools to allocate their funds according to their great needs.

The possibility of erecting a tablet on one of the areas secured for the park through the association noting that the land was bought by donations from the American people was discussed. The treasurer's report showed \$6,297 in contributions received since the last report. Among donations the proceeds remaining following disbandment of the 17th Connecticut Regiment Volunteers Association. The accompanying letter stated that the association, made up of veterans of that organization, directed that any sums remaining after the last died off be turned over for "some good purpose" and the holder of the fund had determined the wish of the veterans would be carried out by providing the amount to purchase land for the battlefield.

Colt Foundation Has Given Financial Aid To 95 Boys

BALTIMORE (AP) — "Let me know what you need," said Carroll Rosenbloom.

There are 50 boys in colleges this year partly because of that offer by the owner of the Baltimore Colts.

None is an athlete. Or if he is, it had nothing to do with being given the amount of money he lacked to go to the college of his choice. Neither did scholarship. The program is for the "real poor."

COLD DAY IN '58

"It was one cold day in 1958 when Carroll broached the idea," recalls A. Paul Menton, sports editor of the Baltimore Evening Sun. "We were standing on the field watching the Colts get ready for the National Football League championship against the Giants in New York."

"Carroll said he would like to set up a foundation to help Maryland boys who really needed help to go to college."

It was done with the sports editors of the three Baltimore daily newspapers, the Colts' lawyer and Rosenbloom as the trustees. But Rosenbloom won't allow his name used on the stationery of the Baltimore Colts Foundation.

NO LIMITS FIXED

Rosenbloom fixed no limits for the foundation, just wanted to know each year how much it distributed.

"He thought after it was established," Menton said, "that we would try to get donations from other people or industries. But 99.9 per cent of the income has been either directly from the Colts or through their advertising contracts."

As president and keeper of the records, Menton reported the foundation had given away \$139,875 since 1959. Expenses totaled \$261.

95 BOYS AIDED

The money has gone to 95 boys at 15 colleges. Eight of the colleges don't even have a football team. Few of the boys study physical education, for that matter.

Their majors include nuclear engineering, economics, law, medicine, chemistry and sociology. One boy entered the ministry.

There have been 28 graduates aided by the Colt Foundation. Eight of them continued in graduate work and another is in medical college.

GET 2 WINS AT FOUL LINE

By THE ASSOCIATED PRESS

A couple of Dead-Eye Dicks from the foul line won important games for Boston and Cincinnati in the National Basketball Association Wednesday night.

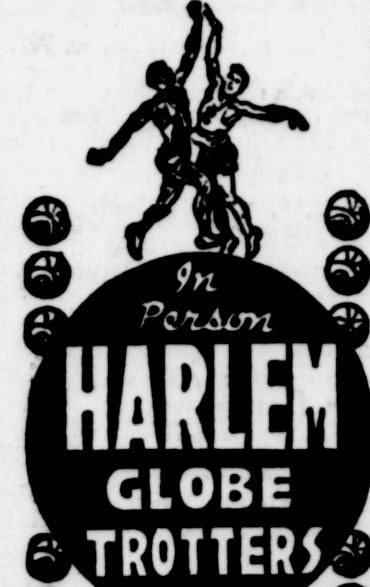

Sam Jones gave the Celtics a 100-97 victory over the St. Louis Hawks when his free throw with 10 seconds left provided what proved to be the winning point.

Two charity conversions by the Big O, Oscar Robertson, in the last 43 seconds gave the Royals a 92-90 triumph over the Los Angeles Lakers.

The Detroit Pistons made three out of four for new coach Dave DeBusschere by downing the Philadelphia 76ers 124-111 in the other scheduled NBA game.

The action kept Boston three games ahead of Cincinnati in the Eastern Division while the Hawks remained 1½ games back of Los Angeles in the Western Division.

Derby Winner In '45 Dead At 22

MONTGOMERY, Ala. (AP) —

The 1945 Kentucky Derby winner — Hoop Jr. — died Thursday night at Hooper Stables.

The 22-year-old horse raced only nine times in his career, winning the Derby and finishing second in the Preakness. It was in the Preakness that he was injured. He never raced again.

Owned by Fred W. Hooper of Montgomery, Hoop Jr. won \$99,200 during his brief racing career.

HARRIERS IN MID-ATLANTIC RACES TODAY

The Gettysburg College cross-country team will pull down the curtain on its 1964 season by taking part in the annual Middle Atlantic Conference championships, today in Philadelphia.

Temple University is playing host to the one day affair.

This year's event will be run off in three sections, university division, college division and college division and freshmen.

Coach Hall Glad entered five freshmen in the 2:45 o'clock yearling event and at 3:15 will send his varsity into the university division competition.

The college race will be run at 4 p.m.

VETS COMPETE

Senior Jerry Staub, Philadelphia, and sophomore Bob Meares, Westfield, N.J., will head the Bulletin contingent.

Gettysburg experienced its first losing season since 1958 when it posted a current regular season mark of four wins and eight setbacks. Staub and Meares carried the load throughout the year by finishing in the first five of each meet.

Dave Bloomer, Phoenixville, the only other senior on the sophomore dominated club, will handle Gettysburg's third spot.

The remainder of the squad will include Rick Gilbert, Burlington, N.J., and either Jim Hires, Palmyra, or Jim Pegg, Murray Hills, N.J.

Gettysburg's outstanding freshman runners will include: Ken Diable, Johnstown; Marc Harris, New Paltz, N.Y.; Doug Olsen, Redding Ridge, Conn.; John Schrader, New Hyde Park, N.Y., and Steve Wilberly, Canterbury, Conn.

NEW BLOW IN AAU-NCAA WAR

NEW YORK (AP) — The Amateur Athletic Union, refusing to "bow to... any threat," has struck back at the National Collegiate Athletic Association in the renewal of the war for control of track and field in the United States.

The AAU, contending it has the sole right to sanction open meets, called the latest NCAA action "an unnecessary and unwarranted boycott."

Col. Don Hull, executive director of the athletic body, issued a statement Wednesday after the NCAA announced a rule banning athletes at its 620 member schools from competing in open meets not sanctioned by the U.S. Track and Field Federation (USTFF).

The NCAA backs the USTFF, which hopes to replace the AAU as the American representative

PALMER WAS CLOSE TO BEING DISQUALIFIED

By BEN THOMAS

Associated Press Sports Writer

LAFAYETTE, La. (AP) —

Arnold Palmer doesn't know it, but he came within a cat's whisker of being disqualified before he even started his battle with Jack Nicklaus for the 1964 golf money championship.

The night before the start of Thursday's first round in the \$25,000 Cajun Classic — which wound up being washed out by a thunderstorm — Arnie's caddy, 15-year-old Danny Barbatto, son of host pro Luca Barbatto, asked his dad for an electric cart to check the pin placements just made by PGA tournament supervisor Joe Black.

Black was standing alongside the elder Barbatto when Danny made the request.

"You can't do that Danny... it would disqualify him," both shouted in unison. PGA rules forbid a player or his caddy from using a cart.

"He was just overzealous," said Luca Barbatto.

Nicklaus jokingly accused Palmer of taking his airplane up and "salting the clouds or something" to cause Thursday's downpour.

Palmer, one of the day's early starters, had finished his round with a two-over par 74, running into trouble on the wind-swept Oakbourne Country Club course.

DELANEY BY RAIN

Nicklaus got off to a booming start in his drive to overhaul Palmer for the money championship. Palmer leads Nicklaus by \$319 and both have picked up checks for over \$111,000 in tournaments this year.

The Burly Nicklaus — chief challenger for Palmer's golf throne — played only eight holes before the rains came. But he was four strokes under par, or six strokes ahead of Palmer.

Temperatures skidded into the 40s after the thundershower and the weathermen said there might be a few scattered showers today. But he called for fair skies Saturday and Sunday.

Black said 36 holes would be played Sunday because of the delay.

TRADING TIME FOR BASEBALL OPENS TONIGHT

By MURRAY CHASS

Associated Press Sports Writer

NEW YORK (AP) — Base-

ball's interleague trading period opens at midnight tonight with Dick Stuart, part of a major interleague deal two years ago, possibly on his way back to the National League.

Stuart's name is just one of many that have been suggested as principals in transactions that may take place between National and American League clubs in the next 25 days, or until midnight Dec. 15.

Trading is expected to reach its peak—if there is a peak—during the major league meeting in Houston starting Nov. 30. Only four deals were completed between the two leagues last year compared with 14 in 1962.

BIG NAMES MENTIONED

Although there is no way of telling whether there will be few or many trades this year, various reports indicate some big names may be involved.

Stuart, Boston's controversial slugger, is said to be headed for Philadelphia where the frustrated Phillies need a long-ball hitter for another shot at the NL pennant. In return, the Phillies reportedly will give up a pitcher, either right-hander Art Mahaffey or left-hander Dennis Bennett.

Stuart went to the Red Sox from Pittsburgh in a four-player trade in 1962. After a poor season with the Pirates, the big first baseman hit 42 home runs and drove in 118 runs with Boston, earning the Comeback of the Year award.

This past season he dipped slightly, slamming 33 homers and driving in 114 runs. Mahaffey and Bennett both were disappointments with the Phillies. Mahaffey compiling a 12-9 record and Bennett a 12-14 mark.

BOTH PITT AND PSU NEED WIN ON SATURDAY

By DAVE LEHERR

Associated Press Writer

UNIVERSITY PARK, Pa. (AP) — The name's the same, but he'll be wearing an enemy uniform Saturday when Penn State battles arch-rival Pitt in its 1964 football finale here.

Pitt's understudy quarterback is Kenny Lucas, big brother of former Penn State star Richie Lucas who won All America fame and the coveted Maxwell Trophy as one of college football's most outstanding players in 1959.

The younger Lucas plays behind Fred Mazurek in Pitt's potent offensive setup and is expected to see plenty of action as the rivalry comes to the home of the Nittany Lion for the first time since 1955.

PREVIOUSLY AT PITT

Previous games were staged at Pittsburgh because of more adequate seating arrangements. But since then, the Lions have opened their new Beaver Stadium with a seating capacity of over 46,000.

Young Lucas has completed 18 of 40 passes this season for 194 yards and one touchdown.

But Mazurek is the man on which the Lions must key their defense.

"Last year Fred Mazurek was one of the best quarterbacks I've ever seen," declared Nittany Lions Coach Rip Engle. "We didn't play Navy then, but I do not see how Roger Staubach could have been any better."

PITT WON IN '63

Mazurek led Pitt to a 22-21 victory over Penn State last year but Staubach was selected the nation's top college player.

The contest should provide an interesting battle between the offensive power of Mazurek and Penn State's one man defensive gang of Glenn Ressler.

"If anybody can stop Mazurek it's Glenn," said Engle.

Fred, playing in his last college game Saturday is just 227 yards away from shattering the all-time total offense record at Pitt set by Warren Heller between 1930 and 1932.

Heller gained 3,171 yards, Mazurek has 2,944.

The Lions, with a 5-4 record after losing four of their first five games, are gunning for their 26th consecutive winning season. Pitt (3-4-2) must win to break even for the season.

FROSH POSTED 2ND STRAIGHT UNBEATEN YR.

The Gettysburg College Freshman football team posted another undefeated season despite three ties. The yearlings under Head Coach Ray Reider have not lost a game since November 9, 1962.

This year they went 2-0-3.

The men who made a splash in the statistical department were halfback Tom Kardash, New Castle, Del.; Lou Bruchey, Frederick; Rich Imperator, Great Neck, N.Y., and Joe Records, Nutley, N.J. Several linemen turned in exceptional performances throughout the season and will be counted upon heavily to fill the gaps on next year's varsity. These include Joe LaQuinta, center, from McKees Rocks; tackle, Mel Maggart, Piqua, O., and ends, Joe Marincic, Monongahela, and Ray Doviatt, Cliffside Park, N.J.

LEADING RUSHER

Kardash was the team's top rusher, gaining 228 yards on 66 carries. He also led the team in scoring with 14 points. Bruchey topped the passing department, hitting 24 of 44 tosses for 227 yards. His passing plus a net 150 yards rushing gives him the number one total offense honors.

He was runner-up in scoring with 12 points. Matt Ostrowski was second in passing with 22 completions for 48 attempts and an even 200 yards. The Hendersonville native also tossed three TD aerials.

The top pass receiver was flanker Imperator with 10 catches for 123 yards. Marincic was second, pulling down seven tosses for 69 yards. Records was the squad chief punter. He averaged 35.7 yards per kick on 21 boots for 749 yards.

NEBRASKA'S MARGIN SLIM ON DEFENSE

NEW YORK (AP) — Under-

defeated Nebraska continues to lead the nation's major colleges in total defense today. But the Cornhuskers' margin is its slimmest in the past four weeks.

This was disclosed in the latest football statistics compiled by the NCAA Service Bureau. Nebraska has yielded an average of 152.4 yards to Auburn's 155.8. The Cornhuskers must limit Oklahoma to no more than 185 yards this Saturday to stay in front.

Florida continues to lead in forward pass defense with a 52.0 yards a game percentage. The Gators' nearest challenger is Kent State with 55.9. Then comes Boston College with 67.1.

Notre Dame, the top-ranked team in The Associated Press poll, is also at the head of the class in rushing defense with a 63.3 yard average.

BULLET LOSS WAS NOVELTY FOR ALBRIGHT

One of the most unique winning streaks in football came to an end last Saturday when Temple University rolled to a 32-20 win over Gettysburg.

Football players have come and gone through the years who have claimed to have never played on a losing team. A team, that is, which has never had a losing season. But, the players who have never played in a losing ball game are far and few between.

Gettysburg's young Sophomore fullback Rod Albright had such a streak going until the Owls put up a brick wall. The 5'10", 190-pound native of York, Pa., had never played in a losing game since his first taste of competition in junior high school.

Albright went through five junior high school games without experiencing a loss. During that undefeated season, he scored six touchdowns and five conversions for 41 points. As a Sophomore, playing his first season on the York Suburban High School varsity, he played in seven of the 10 games. Suburban lost the three games in which he did not appear.

During that year he scored seven touchdowns and one conversion for 43 tallies.

Albright started at left halfback in 20 straight games through his Junior and Senior years and York Suburban walked away with all 20 decisions, one of the longest in the state at that time. During those two seasons he scored 32 touchdowns and 14 extra points for 206 points. He was named to Pennsylvania's Big 33 and was picked to play with the southern team in the annual York County All-Star game. In that game, the south was a decided underdog, but Albright rolled up a pair of TD's and led his team to a 37-6 decision.

Albright came to Gettysburg in the fall of 1963 and was moved to the fullback post with the Bullet frosh. During that season, Gettysburg experienced its second undefeated season in history, winning all four games. He led the team in rushing and scoring.

During the current campaign, Albright stepped into Gettysburg's starting fullback slot in Coach Gene Haas' pro-type offense. He helped guide the Bullets through the first three games with decisions over Hofstra, Bucknell and Delaware. Then Albright came along and player Albright was out with the virus and did not make the trip. Gettysburg lost 19-15. The Bullets then bounced back to defeat Lehigh, Muhlenberg, Lafayette and Juniata. Then the inevitable, which was bound to come along, Albright played in his first losing game, Temple pulling the upset.

Through those six years of football, Rod Albright played in 43 consecutive winning games. During that time he rolled up 51 touchdowns and 30 conversions for 336 points.

Taylor, Mentzer Co-captains Of Canner Squad

Terry Taylor and Melvin Mentzer, seniors, were elected by the Biglerville High School varsity football squad this season as the honorary co-captains for the 1964 season when the Cannons posted a 5-5 record.

Taylor, 5-8, 180, was the workhorse in the Biglerville backfield and was the top ground gainer as well as the leading scorer.

Mentzer, a 5-6, 160-pound guard, was a fine performer throughout the campaign and proved to be a bulwark on the forward wall.

PATRIOTS ARE FAVORED TO BEAT DENVER

BOSTON (AP) — Boston Coach Mike Holovak, whose Patriots are two-touchdown favorites to beat Denver tonight, has cloaked his offensive plans in secrecy. Whatever they are, a familiar figure—Babe Parilli—will put them into action.

And it's no mystery Denver's Mac Speedie has vowed the Patriots won't repeat their lopsided 38-10 victory over the Broncos earlier this season.

Two facts lend support to this contention. One, Denver's defense has shown tremendous improvement the last few games. Two, Boston has eight walking wounded including flanker Art Graham and left halfback Ron Burton.

Groups Show Displays On Church Work

By JERRY EDGERTON

LOUISVILLE, Ky. (AP) — The man in flowing white robes showed the hippopotamus tooth and the carved African masks to the crowd of children.

He explained the work of the White Fathers of Africa and the satisfactions of the religious life.

His booth, with a background of photographs and statistics boasting of six million Roman Catholic converts in Africa, was

one of the most popular at a recent exhibition explaining the diverse vocations of Catholic religious orders.

OTHER DISPLAYS

The purpose was to show young people some of the activities of priests, nuns and brothers and spur their interest in joining the orders.

The show was sponsored by the local chapter of the Serra Club, an international group of Catholic laymen. The club sponsors similar displays in other cities, shows films and provides speakers.

The atmosphere at the Louisville show was that of a trade fair, and no one was doing any hard-sell recruiting. Some 54 orders from 12 states were represented.

Each booth had pamphlets and leaflets to give out.

STAGE HOOTENANNY

The emphasis seemed to be on demonstrating that the religious life is far from all somber and serious. Color slides at many booths showed brothers and students playing sports or having informal get-togethers. A popular feature was a hootenanny staged by nuns, brothers and seminarians which included a hand-clapping, sing-along rendition of "When the Saints Go Marching In."

The Our Lady of Grace Sisters staged a show with marionettes dressed as nuns.

"SERVING GOD"

A majority of exhibits put emphasis on "the of serving God."

Most of the men and women operating the booths have been assigned full time by their orders as "vocational officers." One such official was the Rev. Richard Wise of the Society of the Precious Blood. He explained he corresponds with young men who inquire about entering the order, sends them literature and if they express continuing interest, eventually pays them a visit.

The Seven Deadly Sins are: 1. Politics without principal. 2. Wealth without work. 3. Pleasure without conscience. 4. Knowledge without character. 5. Business without morality. 6. Science without humanity. 7. Worship without sacrifice. — E. Stanley Jones.

More Than Enough

We are the most prosperous people the world has ever seen! Even the poor among us live in princely comfort compared to some in other lands. Our country is famous for its beauty and fruitfulness, our cities are as modern as tomorrow, and our future glows with promise. God has indeed been good to us.

But with His bounty of wealth and power, God has given us responsibilities. Because we have so much, we are called upon to share what we can spare. And we are required to work and pray for the end of ignorance, poverty and suffering wherever they are found.

To be able to give is a blessed privilege. Let us fill our churches and join in heartfelt thanks to God that we have enough . . . and more than enough . . . to share.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to Church regularly and read your Bible daily.

Kennedy Family Overcome Tragedy, Grief Of Past Year To Assume New Personal And Political Commitments

EDITOR'S NOTE — A year after Dallas, the Kennedys are on the go again. After a period of indecision, Robert chose politics and scored a victory on his first try. Edward is coming back after critical plane-crash injuries, and Jacqueline Kennedy is making a new life. None forget Dallas, but a year has brought changes.

By JULES LOH
NEW YORK (AP) — Time is said to heal all wounds, but one year isn't much time to heal the wound the Kennedy family suffered last Nov. 22.

In the days following the assassination, Robert F. Kennedy reflected the family's grief. Always laconic, he became almost curt; always detached, he became sullen. Finally he was able to say "Sorrow is a form of self pity, and we have to go on." He seemed to be speaking for the entire family.

OPTIMISM SURVIVES

A year after that day in Dallas, it is clear that the characteristic optimism of the Kennedys has survived. The family still is one of drive and accomplishment.

When Robert was elected senator from New York and Edward M. re-elected in Massachusetts to the seat once held by his late brother, it marked the first time in history three brothers had become senators.

Last June 20, the day after the plane crash in which Edward was critically injured, Robert contemplated the family responsibilities facing him and announced that he would not be a candidate. But Edward made swift progress and he changed his mind.

With both Robert and Edward fit and eager for public life, speculation bobs up about the future for both of them.

As senator from a key state, Robert, 39 today, plainly is in a good spot to try for higher office, even the presidency. Ed-

ward, at 32, has even more time on his side.

Election night was one for the Kennedy family to savor.

Joseph P. Kennedy, 76, patriarch of the clan, flew to New York to be with Robert that night, and at Edward's bedside in Boston were other Kennedys. Once again the Kennedys could gather in triumph, as so many times they had gathered in affliction — when Joseph P. Kennedy suffered a stroke, when infant Patrick Kennedy died, when Edward was injured in the crash.

WILL WALK SOON

Edward will soon be out of his steel orthopedic frame, the device he calls a rotisserie because it is used to turn him over. Aides at the hospital have walk — most guess between Dec. 11 and Dec. 20. Edward's only goal is to walk into the Senate when it convenes in January.

Almost four years after his near-fatal stroke, Joseph P. Kennedy is "somewhat better," according to Edward. He has been visiting Edward about once a week. Mrs. Joseph P. Kennedy also has been active;

she was an enthusiastic campaigner for her son in the New York Senate race.

WIDOW'S DUTIES

Duties have been heavy on Mrs. John F. Kennedy in the year since Dallas.

She accepted the task of guiding the outpouring of tribute to her husband. With the fervor of a devoted curator, she has been assembling her husband's historical legacy.

Besides helping raise funds for the Kennedy Memorial Library to be built at Cambridge, Mass., she has helped to plan, or at least acknowledge, memorials to John F. Kennedy throughout the United States and from Runnymede to Bolivia.

PERSONAL PRIVACY

She has found, at last, some privacy in her apartment in New York and a house on Long Island's North Shore.

Mrs. Kennedy's formal period of mourning ends Sunday but Pamela Turnure, her secretary, expects there will be no sudden change in her life. Letters still arrive at the rate of 400 a day. "She values her time with her children," Caroline and John F. Jr., says Miss Turnure. "What she does will depend on how she feels later on."

PARISH WOMEN HOLD SESSION ON WEDNESDAY

Final plans for the pre-Thanksgiving party to be held Saturday night in St. Aloysius Hall, sponsored by the St. Aloysius Parish Council of Catholic Women, were completed at the November meeting of the council on Wednesday evening. The general committee includes Mrs. Ivan Rickard, Mrs. Bernard G. Kebil and Mrs. Conrad C. Hull. The party will begin at 8 p.m. All women of parish are invited to send cup cakes, cookies or candy for the refreshment table.

Mrs. Bernard M. Selby, president, was in charge of the session which opened with salute to the Cross, salute to the flag and prayer to Our Lady of Good Counsel, led by the pastor, the Rev. Dr. John E. Metz. Reports were heard from Mrs. Donald L. Beford and Miss Nancy Oaster. Mrs. R. Guy Lain and Mrs. John Harmon served as the visiting committee since the last meeting and Mrs. Noah C. Snyder and Mrs. George P. Smith will visit the shut-in members of the parish before the December meeting.

Miss A. Marie Budde, parish chairman of the Catholic Charities, noted that volunteer help is still needed for the storeroom in Gettysburg, that clothing, and toys, and small wrapped Christmas packages are being sought by the Gettysburg unit. A number of toys have already been delivered and several packages were brought to the meeting on Wednesday. All of these articles should be taken to Miss Budde's home.

ANNOUNCING OFFERING

Mrs. Thomas G. French, parish libraries and literature chairman, suggested that books be a part of all Christmas lists and noted that Advent provides an opportunity for a private program of spiritual reading on subjects appropriate for meditation. The annual offering for the Special Diocesan Activities Fund will be solicited on December 6 following the Sunday morning Masses, with arrangements in charge of Mrs. Carroll Oaster, parish SDA chairman. The contributions are included in the check presented to the bishop every year at diocesan convention time to be used for vacation schools, youth work, literature for nonsectarian colleges and migratory laborers, within the diocese.

A contribution of \$10 was voted to White Hill for Christmas for the boys there. A gift will also be sent to the council's adopted boy at Paradise School.

Plans were discussed for the annual banquet of the Keystone Cabinet Company to be served by the council on Wednesday, December 16. The December meeting will be held on Thursday, December 17, in the form of a covered dish supper, instead of Wednesday, due to the banquet.

PLAN CHILDREN'S PARTY
The annual Christmas party for the children of the school, sponsored by the council, will be in charge of Mrs. Lain and Mrs. Kebil, who will contact the parochial school principal to finalize arrangements.

Mrs. Selby, who attended the sessions of the national convention in Washington, D. C., last Friday, and the banquet on Friday night, spoke briefly concerning the event.

SUPPORTER OF CANCER DRUG REQUESTS AN EARLY TRIAL

CHICAGO (AP) — Dr. Andrew C. Ivy, a former university official and an ardent promoter of Krebiozen as a cancer treatment, says he wants an early trial so he can face his accusers.

Dr. Ivy, 71, internationally known physiologist, and three other persons pleaded innocent Wednesday to a 48-count federal indictment charging them with mail fraud, conspiracy, mislabeling and making false statements about Krebiozen.

"This is a new and interesting experience," Ivy said after the arraignment in U.S. District Court.

CLAIM PROOF

Trial was set to begin Jan. 11, and the court allowed the four defendants until Dec. 21 to file motions.

"It is not the first time that a scientist or a benefactor of mankind has suffered indignities for standing up to his convictions," Ivy told newsmen.

"I have evidence to prove that Krebiozen is a worthwhile drug in the treatment of cancer," he said. "I have reports from a thousand doctors showing its benefits on patients hopelessly afflicted with cancer."

Dr. Ivy, now a professor of biochemistry at Roosevelt University, said he has no immediate plans other than continuing to work in his laboratory.

PLEAD INNOCENT

Dr. Ivy and a codefendant, Dr. William F. P. Phillips, 52, an associate of the Krebiozen Research Foundation, pleaded innocent before Judge Julius J. Hoffman.

Dr. Stevan Durovic, 59, a Yugoslavian, who developed Krebiozen, and his brother, Marko, 64, a lawyer, also pleaded innocent.

The National Cancer Institute and the U.S. Public Health Service have termed Krebiozen worthless as a cancer treatment after a study of 504 case histories.

NO PROGRESS IN RAIL TALKS

CHICAGO (AP) — Time was running short today as federal mediators sought a solution to a threatened strike which could halt service on 90 per cent of the nation's rail traffic.

Francis A. O'Neill of the National Mediation Board said that no progress was made in talks until nearly midnight between the nation's railroads and six shop craft unions.

The unions, representing some 140,000 members, have threatened to walk out at 6 a.m. local time Monday to enforce their demands for larger salary increases than recommended by a presidential emergency board.

Arrest Policeman As Ring Member

PHILADELPHIA (AP) — A 34-year-old Philadelphia policeman was arrested Wednesday night and accused of being a member of a burglary and theft ring.

John Sanders, a policeman for two years, was charged with taking part in at least one hold-up. He denied any knowledge of the theft.

Investigators say the ring stole more than \$100,000 in 15 crimes since Dec. 13, 1963.

Sanders was charged with robbery, larceny, receiving stolen goods and conspiracy.

WILSON WILL SEEK U. S. AID IN TRADE PLAN

By ARTHUR L. GAVSHON
LONDON (AP) — Western Europe has run into a wall of economic difficulties in its long march toward unity. Its prolonged boom also seems heading for trouble.

Talk is even heard of a general slump in world trade from such men as Britain's new prime minister, Harold Wilson.

Wilson will seek President Johnson's support when they meet next month for a radical new system of international credit that will allow a freer flow of money and goods.

POSSIBLE BREAKUP

There is immediate peril that Western Europe's two chief trading groups — the six-nation Common Market and the seven-nation European Free Trade Association — will break up because of actions by key members.

A longer-term peril lurks in the possibility that the European body will play itself out. To safeguard themselves the nations might then adopt protectionist policies. As trade contracted markets shrank and unemployment spread, the Europeans and their trading partners would slide into a slump.

Already there have been ominous pointers.

TRADE DEFICITS
In most industrial countries of West Europe, excepting West Germany and Sweden, imports are outstripping exports, leaving a scary trail of trade deficits.

A survey by Common Market economists recently forecast a tapering off of the average European growth rate from 5.5 per cent this year to 4 per cent in 1965.

If this, as the experts say they expect, coincides with a slowdown of American expansion after nearly four years of high riding, a contest for world markets may develop with ever-growing intensity.

DE GAULLE THREAT
In the Common Market, French President Charles de Gaulle recently threatened to walk out if the Germans did not come to terms with France soon on a common grain price.

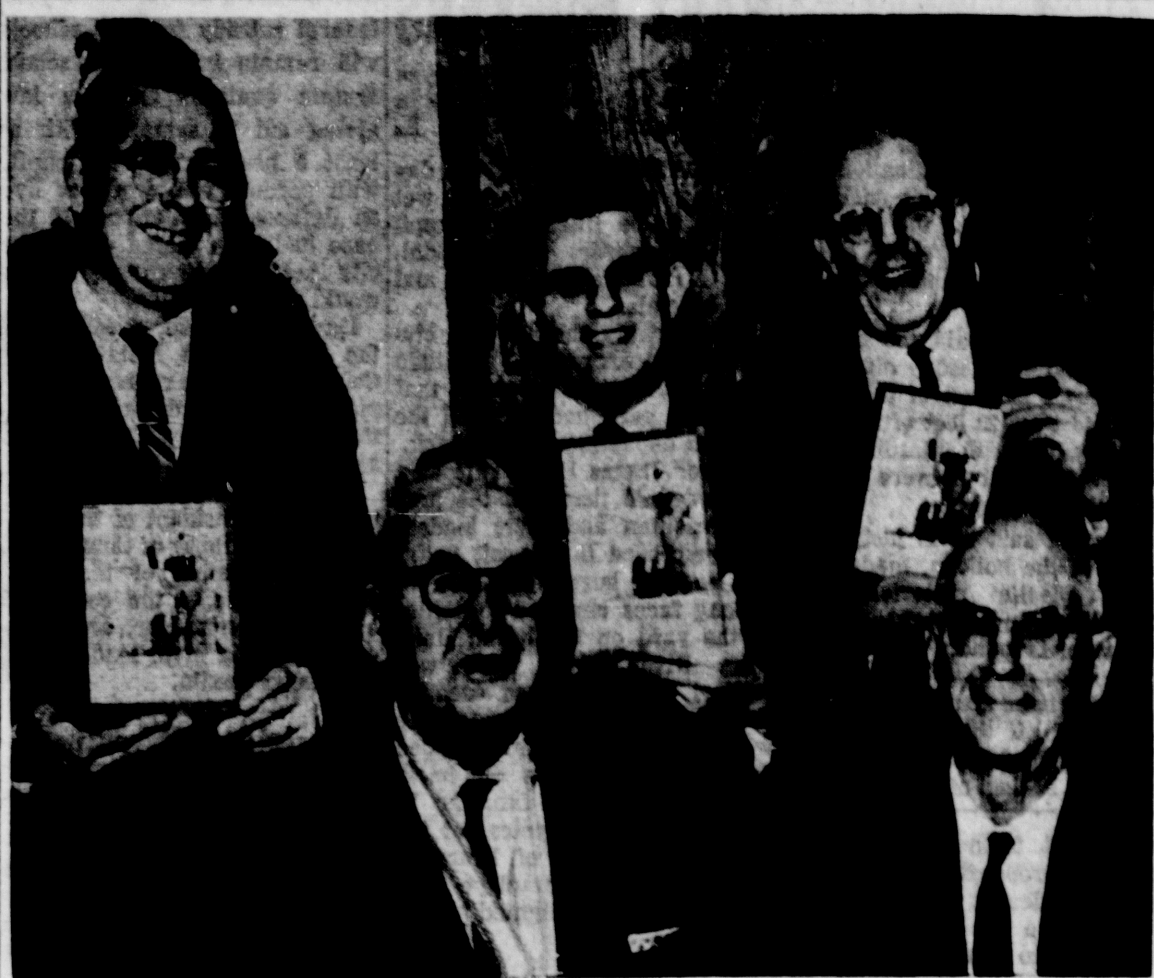

France, with cheap wheat, wants to sell more to her partners. West Germany's Christian Democratic government, with subsidized wheat farming and a general election next fall, does not want cheap wheat dumped on its doorstep.

insisted that any settlement be made within the framework of the emergency board's recommendations.

Michael Fox, president of the Railway Employees Department, said that the shop craft unions will definitely strike Monday morning unless they receive a satisfactory settlement proposal from railway management.

The board recommended wage increases of 27 cents an hour over a three-year period. Fox contends the workers are entitled to greater increases than the board's recommendation on the grounds they possess special skills that make them underpaid in relation to other nonoperating railroad workers and other industries.

Honored At Annual Scout Dinner

Five of these honored Wednesday night at the annual Black Walnut District ladies' night and recognition dinner are shown at the session. Seated are Ray F. Zener, first York-Adams Area Council chief executive and "Mr. Scouting" in the area, who was a special guest at the dinner and praised for his work in establishing Scouting in Adams County, and Dr. W. E. Tilberg, who with his wife was presented with a plaque for their outstanding contribution to Boy Scouting over the years. Dr. Tilberg, presently a vice chairman for the district, organized the first six troops established here.

Standing are the men presented with plaques for "outstanding service to youth." Left to right are Charles Kingston, Gardner, who received the plaque given to the C. H. Musselman Division of the Pet Milk Co., and who also was presented with a similar plaque for his personal contribution to Scouting as finance chairman; Harold Ecker, Seminary Ave., who received a plaque presented to the Gettysburg National Bank, and a plaque for his personal contribution as past finance chairman and other Scouting activities, and Mayor William G. Weaver, who was given a plaque for the Gettysburg Borough Council. (Times photo)

Britain's new Labor government took the drastic step of putting a surcharge on almost all manufactured imports while offering tax cuts to exporters. The aim was to bring earnings into line with spending and so head off bankruptcy.

It is clear that the specter of a slump haunts Wilson as it haunts the statesmen of EFTA nations meeting today in Geneva to discuss their future.

Wilson wants to apply to international transactions a sort of checking account and loan system like that used by domestic banks.

He hopes Johnson will back his idea for international talks leading to a world economic conference at summit level.

Ohio State scored 110 points last football season as against 102 for the opposition. The Buckeyes had a 5-3-1 record.

TURKEY PRICE MUCH LOWER

The price of turkey, main attraction of the Thanksgiving table, should please housewives this year.

A continued abundance of bigger birds and a good supply of lightweights should hold turkey prices below those of last year. One large food chain lists 18-24 lb. turkeys at 31 cents a pound in its New York area outlets; 10-18 lb. turkeys at 35 cents a pound; and turkeys under 10 lbs. at 39 cents a pound. The prices range from two to four cents a pound below those of Thanksgiving week last year.

Thanksgiving's other traditional items may be more expensive. Cranberry prices may be up in many areas. Onions, car-

rots and canned pumpkin appear less abundant. Potatoes, scarce for months, may be almost double last year's price.

Broccoli, cabbage, celery, cucumbers, lettuce, peppers, radishes and squash fill vegetable bins across the nation.

Roast beef is still a bargain at many meat counters. Pork roast and ham are attractively priced in many areas.

Eggs, also abundant, will remain plentiful for some time.

NEW YORK (AP) — The National Basketball Association's Board of Governors has agreed to make 1964 Olympic basketball players exempt from the league's player-limit rules through Jan. 1.

That means that the seven players now in the league who helped United States win the Olympic basketball title, can be carried in excess of the club's limit of 11 players.

KEEP IN SHAPE. The pressures on most women increase at this time of year, when there's a step-up in activity in home, business and social life. If the going gets really tough, and it usually does, it exacts a toll of one's looks, energy and disposition.

To take the season in stride and enjoy it, you simply have to keep in superwoman shape. With time already at a premium, how can you do it? Here are some quickie suggestions:

● When you are up too late several nights running, subsequently make a point of 10 to 12 hours' sleep. The usual home-front pursuits will keep.

● In the diet department, rob Peter to pay Paul. Have a party feast one day, fast the next.

● Daily get at least this much exercise: Run in place on tiptoes for 10 counts. Scatter 10 cards on floor; pick up five by bending from waist and five by squatting. Pull stomach in, head up and shoulders down — hold for 20 counts.

● Whenever you are outdoors, b-e-a-t-h-e. Take air slowly and exhale forcefully. Breathe at an

open window on days you do not go outside.

● Make use of all "instant" beautifiers — hairsets, nail polish dryers, skin moisturizers, bath oils.

Just try the scheme. It will go far to keep you lively and lovely.

Navy Yards To Be Closed

WASHINGTON (AP) — Congressional sources said today the Brooklyn, N.Y., and Portsmouth, N.H., Navy yards are among those picked by the Defense Department to be closed.

A well-placed source here said that not only the big Brooklyn naval installation but also two other bases in New York — the Brooklyn Army Terminal which employs about 2,000 persons and Ft. Jay on Governor's Island — also are among the bases slated for closing.

Sen. Thomas J. McIntyre, D-N.H., announced earlier that the Portsmouth Naval Shipyard also was among the bases to be closed. It is the nation's oldest yard.

Only two weeks ago, Sen. Robert F. Kennedy, D-N.Y., appealed for continued operation of the Brooklyn yard at a meeting with Secretary of Defense Robert S. McNamara. He also met with McNamara to talk about the yard before the Nov. 3 election.

Finish Typing Ruby Murder Trial Record

DALLAS, Tex. (AP) — Short-hand reporters expect to complete a typed record of the Jack Ruby murder trial this week, A.D. Jim Bowie, district attorney, said Thursday.

When the record is completed, Bowie said, clerks will send it to the Texas Court of Criminal Appeals in Austin and it will set a time for hearing arguments from lawyers.

The appeals court must decide whether Ruby got a fair trial when a jury sentenced him to the electric chair for the murder of Lee Harvey Oswald.

STRIKES CUT FORD OUTPUT TO TRICKLE

DETROIT (AP) — Top officials of the Ford Motor Co. and the United Auto Workers union met Thursday in an attempt to find settlement of local-level strikes which Ford blames for reducing its new car output to a trickle.

Ken Bannon, the UAW's Ford department director, and M.M. (Mike) Cummins, Ford's labor relations director, headed the two teams — the same ones which reached agreement on a new national contract back on Sept. 18.

Before Thursday's session, Bannon had told newsmen it was "to find out why" all at the plant disputes had not been resolved.

These revolve around local-level working agreements which supplement the national contract. Effectiveness of the overall pact is contingent on them.

Thursday's top-level meeting followed by only a few hours a pre-dawn break off of marathon local-level negotiations at the only three plants where no settlements have been reached.

These are in Sterling Township, Mich., where rear axles and chassis parts are made, and at Wayne, Mich., where separate plants assemble automobiles and trucks.

Middletown Shocked By News Olmsted To Close

HARRISBURG (AP) — Mary Dupes' diner is no more than a stone's throw from the main gate at Olmsted Air Force Base in nearby Middletown.

The diner is a hub of activity, especially when the shifts change as they did Thursday at 4:30 p.m. As the departing shift passed through the gate, Mary watched from behind the counter.

It was a dismal day outside, and Mary felt dismal inside.

Secretary of Defense Robert S. McNamara had announced in Washington that the greater part of the base would be closed, affecting the jobs of 11,000 civilian employees. The phase-out would take five years to complete.

TOP HEARD FIRST

"Olmsted is the right arm of my business," said Mary as she stared out at the rain. "I've had my business 10 years and Olmsted is it."

She smiled and added: "How can I tell you everything I heard in here today?"

The news had been broken in an efficient military-type manner—through the chain of command.

The word first was passed to top installation administrators. Then Maj. Gen. Frederic H. Miller, base commander, called a hurried conference of civilian officials and business leaders.

COME BITTERNESS

Meanwhile, supervisors were giving the bad news to personnel.

"I feel bad. How did you expect me to feel?" lamented William Nyce, a boiler fireman with 14 years at the base. "I've been married five months and had just bought my house. Plans? Right now, I can't even think straight."

Raymond Vermilyea, a 13-year packer, expressed bitterness toward President Johnson.

"I felt Johnson had something up his sleeve, and this was it," Vermilyea said. "Why didn't we get the word before election? Now, we've got to sell everything and start all over."

BUSINESSES UNHAPPY

Emanuel Wilson works with instrument calibrators and has 21 years at Olmsted. "It is one

hell of a thing," he remarked, "but I'm not going any place else. This is my home."

Small businessmen in Middletown were as unhappy as the Olmsted employees, but a few expressed optimism.

"Anything can happen here in six months or five years," said Chester Stump, who has operated Stump's grocery for some 30 years. "Something will happen."

MAY BE GHOST TOWN

Frank Snavely, who has run an appliance shop for 15 years, was pessimistic. "This is liable to turn this area into a ghost town," he said.

As the rain continued to fall, the workers hurried to their homes to answer countless questions posed by families who had heard the news on the radio.

Back at her diner, Mary Dupes looked up for the day. Her business — "Dinners, sandwiches and soup"—goes from 5 a.m. to 5 p.m.

"Now," she sighed "Who knows?"

LBJ CALLS ON SCHOOL WHERE HE GOT DEGREE

By FRANK CORMIER

SAN MARCOS, Tex. (AP) — President Johnson, returning to his college of 34 years ago, defended his "great society" concept today as realistic and attainable. He said it is "not an idle dream or vague Utopia."

Johnson was making a sentimental journey to San Marcos, a city of 13,000 some 50 miles southeast of his ranch home near Johnson City.

It was at San Marcos State Teachers College in 1930 that Johnson received a bachelor of science degree. Now he was returning to that campus, renamed Southwest Texas State College, to help inaugurate a new college president, James H. McCrocklin.

2 BROAD GOALS

In his text, Johnson set forth two broad goals for the "great society" program he hopes will become the central theme of his administration's efforts:

1. "We must strike down the barriers which limit the hopes and the achievements of some of our people." He mentioned racial discrimination, poverty and lack of educational opportunities.

2. "We must move to enlarge the horizons of all Americans." He said: "the ultimate test of any society is the quality of the men and women it produces and the quality of the life they are permitted to lead."

Johnson said the great society "is concrete goals and will require specific programs. Even as we meet, some of these programs are being prepared for my review."

FUTURE PLANS

Without getting specific, he

Huge Balloon Falls On Oklahoma Field

PAWTHUSKA, Okla. (AP) — A balloon "larger than a football field" fell on a pasture owned by Richard Harding and he still doesn't know what to do with it.

Harding, a rancher, said the balloon has no identification and carried no instrument package. He has contacted the Federal Aviation Agency, but hasn't been able to learn the balloon's origin.

The rancher said the balloon descended Wednesday night and tore down 150 feet of telephone line and over 20 feet of fence as it came to earth. Harding said several small trees were uprooted by the balloon.

Harding said he is just going to leave the balloon, made of a clear plastic material reinforced with nylon threads, until its owner is found.

Partly bake spareribs "as is," then pour off the fat; add your favorite barbecue sauce and continue baking until tender.

mentioned forthcoming administration proposals to help make cities "a decent place to live," to preserve the beauty of the land and to "make it possible for every child to receive an education of the highest quality to the limit of his ability—no matter how poor he is, or where he lives."

While limiting his catalogue of proposals to these, Johnson promised the over-all program "will do all these things and more, much more."

Before leaving Washington Thursday to spend the Thanksgiving season at his hill country ranch, Johnson told leaders of the Committee for Economic Development, a private economic research group: "I do not interpret the election as a mandate to any reckless, novel, dangerous or unique course."

Earlier, in a White House ceremony at which he accepted a bronze bust of the late President John F. Kennedy, Johnson called on the nation to observe the anniversary of his predecessor's assassination with a rededication "to the pursuit of those ideals of human dignity in which he believed."

The President and Mrs. Johnson plan to attend a memorial service Sunday in Austin.

PHILADELPHIA NAVY WORKERS CHEER ESCAPE

PHILADELPHIA (AP)—A day that dawned cloudy and wet proved to be filled with happiness and cheers for Philadelphia Naval Yard workers and city officials.

The workers cheered and civic leaders expressed gratitude when news was announced that the huge yard had escaped the defense department's cut back.

Mayor James H. J. Tate said he wanted to thank all the area congressmen and civic leaders who responded to his call to try and keep the huge yard open.

Long faces changed to smiles at the yard on the broad Delaware River when word was flashed that the base escaped the sweeping cutbacks. Some workers cheered. Others slapped their companions on the back. Some held up the familiar V-for-Victory sign. Typical of the reaction was that of Franz J. Colonna, 57, an employee who said he was "delighted" with the news.

BIRMINGHAM, Ala. (AP) — A sudden gust of wind sent a bank customer at a drive-in window and would-be helpers in hot pursuit for a \$2,000 check blown out of the customer's hand.

The valuable piece of paper—pushed by 40-mile-an-hour winds—was outdistancing its pursuers when E. E. Shaddix, a policeman, pounced on it.

ADD 64 JOBS

Besides continuation of the 8,100 jobs, the Defense Department orders Thursday will bring an additional 64 jobs to Philadelphia. As other bases and defense installations are cut back

over the country, some of the work will be brought in.

The continuation of the yard also means a \$2.5 million-a-year federal subsidy for city schools will remain intact. The school system qualifies under a law giving aid to systems with at least 6 per cent of the pupils with parents who work or live on defense installations. If the base had been closed down, the city school system no longer would have qualified.

Daniel J. Burke, president of the Philadelphia Metal Trades Council, which represents employees at the yard, said "the effort put forth by the workers really paid off."

W. Thatcher Longstreth, executive vice president of the Philadelphia Chamber of Commerce, said continuation of the Yard was a tribute to the combined efforts of the mayor, area congressmen and civic leaders and area news media.

The Switzers switched back to gas heat when electric bills far exceeded the estimate. Electric bills for two months alone totaled \$171.97.* Bedrooms couldn't be kept warm and water pipes froze.

This was the all-electric Gold Medallion home that didn't prove to be comfortable.

Now that the Switzers have converted their all-electric home to gas, they're dollars ahead... living in a comfortable home and living modern for less with gas. Dependable gas heats for only a fraction of the cost of electricity.

Blames Loss Of Car Output For Production Index Drop

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP) — Businessmen are paying more heed today to what is happening than to what didn't.

What didn't happen was the production of cars and parts and materials that didn't occur because of shutdowns in auto plants.

What is happening is the continuing rise in output of other consumer durable goods and in the non-durable staples of the economy.

The loss of car output dragged the industrial production index down in October from the previous month for the first time in more than a year. But it is still 131.7 per cent of the 1957-59 average, compared with 126.1 per cent in October 1963.

SEEK RECOVERY
And this helps businessmen shrug off the expected drop last month because of labor troubles and look to a fast recovery.

Two other statistics that looked queasy in October come under the same interpretation. Retail sales dipped slightly, but this too was due to loss of incomes in communities where plants were shutdown because of strikes or because struck customers weren't buying just then.

Job totals also were adversely affected by the auto troubles. But businessmen note that outside this industry and its suppliers the job demand was strong. Employment advanced

CONSUMER SPENDING

Consumers are spending more in communities untouched by the labor strife. After allowing for sales losses in autos, retail trade is topping year ago levels by the highest percentage since last March when the federal income tax cut went into effect.

Utilities are producing more despite the auto setbacks, and count on the increased demand continuing.

Industries producing equipment both for consumers and for business firms kept on climbing in October.

Capital spending by business is still rising. The October setback in production figures is deemed only temporary. It seems unlikely to change any boardroom thinking about the advisability of expanding plant and buying new equipment.

So today's tendency is to write off October's troubles as temporary and to take those continuing this month in stride. Outside the affected industries the trend is still upward.

DEVASTATING EFFECT SEEN IF BASE CLOSES

HARRISBURG (AP) — Gov. Scranton says the cutback of some 11,000 civilian jobs at Olmsted Air Force Base will prove "devastating to the economy of Central Pennsylvania."

"Even more important," he added in a statement, "it will add thousands to the ranks of the unemployed just when Pennsylvania is, at long last, making giant strides in overcoming decades of unemployment."

The statement was issued Thursday after the Defense Department in Washington announced a five-year phase-out of the Middletown Air Materiel Area, which provides the principal function of the base.

MARSHALS FORCES

Scranton said he would contact Pennsylvania's Congressional delegation to join with the state "in an all-out effort to reverse this calamitous decision by the Defense Department."

The governor added that he had sent a telegram to President Johnson and Secretary of Defense Robert S. McNamara lodging "a vigorous protest on behalf of these employees, their families and all residents of Central Pennsylvania."

Sen. Hugh Scott, R-Pa., criticized what he called the "calculus attitude" of the Johnson Administration announcing the closings immediately after a national election.

STATE'S LARGEST

The senator added in his statement released in Washington: "I have been in touch with Gov. Scranton's office and we are planning further moves to preserve this installation and the jobs of the people involved."

A statement issued in Washington by the office of Sen. Joseph S. Clark, D-Pa., expressed concern over plans to close the air materiel center.

"This is Pennsylvania's largest defense installation and the loss of employment will have a profound impact on the economy of Central Pennsylvania," the statement said.

"HARDEST BLOW"

The statement said Clark, who is out of the country, would do everything possible to find new employment for Olmsted workers who will lose their jobs.

Mayor George D. Mansberger of Middletown called the closing "a disaster." He said the borough has survived serious floods and a major fire that in 1910 wiped out the business section.

"But this is the hardest blow of all," he said.

Middletown, with a population of 11,000, is located 10 miles south of Harrisburg. The Air

Lock Haven Labor Market Improves

WASHINGTON (AP) — The Labor Department says employment gains are likely in the Lock Haven, Pa., labor market area during the coming months.

In its latest report on unemployment, the department removed the Lock Haven area—from its list of areas with substantial unemployment — 6 or more per cent of the total labor force out of work.

It attributed the improvement to advances in durable manufacturing and gave this summation of the job outlook to December:

"Further employment gains likely in (the) coming months, unemployment (is) expected to remain moderate."

The report gave no further details.

German Magazine Claims Pope Pius XII Sought Aid For Nazis Through Cardinal

HAMBURG, Germany (AP)—The controversy over Pope Pius XII's actions in World War II revived Thursday with reports in West Germany and Britain of Nazi documents alleging the pontiff sympathized with the Axis powers.

A high Vatican official said the documents were "clearly partisan because of their source. They are documents from only one of the interested parties."

The German news magazine Der Spiegel reported that Nazi foreign policy documents, soon to be published in book form, revealed that Pope Pius tried to persuade the United States and Britain to shift to Germany's side against the Soviet Union. Der Spiegel said the pontiff believed the Nazi army was the only defense against communism of Europe.

APPEALED TO CARDINAL
The magazine said the Nazi documents reported that the Pope sent an Italian architect, Enrico Pietro Galeazzi, to seek

the help of Francis Cardinal Spellman in New York for his anti-Communist plan.

Cardinal Spellman, in Rome for the Vatican Ecumenical Council, was not immediately available for comment.

According to Der Spiegel, the Pope's plan called for Hitler's replacement by another leader, probably Heinrich Himmler.

The magazine said the documents also proved the charge, raised last year by West German playwright Rolf Hochhuth in the controversial play "The Deputy," that Pope Pius did little to save the Jews from Nazi extermination.

"A BIT OVERDONE"

Der Spiegel said the documents report that the pontiff told U.S. diplomat Harold H. Tittmann as early as January, 1943, that he believed Allied reports of the mass gassing of Jews "are a bit overdone for propaganda purposes."

"The representative of Christ hardly spoke a clear pastoral word against the crimes of the

PNPA SETS UP JOURNALISM SCHOLARSHIPS

HARRISBURG—Two permanent journalism scholarships at Point Park Junior College in Pittsburgh, have been established for the Pennsylvania Newspaper Publishers' Association (PNPA), according to G. A. Harshman, chairman of the Journalism Education Council of PNPA, and president and editor of the Shero-Herald.

The first scholarship, worth more than \$4,800, covers all costs for a full five-trimester journalism program at the college. Included in this award are tuition, room and board, books and all fees. It is awarded annually to the high school graduate who, upon completion of the PNPA Scholarship Application, fully meets the requirements set up by a PNPA committee.

SECOND AWARD

For the first runner-up in the competition for the full scholarship award, the second scholarship, worth approximately \$2,000, has been established. This award covers all tuition for the five-trimester journalism program.

Applications for the PNPA awards will be available from member newspapers in about three weeks. Applications must be returned by March 1, 1965. Winners of the two awards will begin their journalism studies in September, 1965.

This year, on a trial basis, PNPA made each of the scholarship awards. James Krut of Mt. Union, Pa., won the first award. Barbara Jo Miller of New Cumberland, Pa., won the full-tuition scholarship.

brown (Nazi) holders of power," the magazine said.

"He never threatened Nazis with excommunication the way he did the Communists in 1949 and he never allowed himself to be moved by appeals from the Western Allies to bless the democracies' crusade against Adolf Hitler."

The documents show, Der Spiegel continued, that when the Pope did condemn Nazi crimes, he did so "in his filigree-type language and then only in general platitudes" and "he only protested if Catholics were involved."

U. S. ADDS 1,200 MEN TO FORCES IN S. VIET NAM

By SPENCER DAVIS

WASHINGTON (AP)—The United States sent another 1,200 military men into South Viet Nam this month, officials disclosed Thursday. More American air transport units also have been thrown into the struggle.

The disclosures came less than 24 hours after it was announced that Ambassador Maxwell D. Taylor will fly back to Washington to open a sweeping review of the South Vietnamese situation with President Johnson and his top military and diplomatic advisers on Nov. 27.

UP 5,000 MEN
The additional manpower brings U.S. military strength in the troubled area to about 21,200 — up 5,000 since midsummer, sources said.

Some of the reinforcements have been assigned to the U.S. Special Forces, an elite unit specially trained for guerrilla warfare.

Other U.S. forces have been assigned to beef up the teams of American advisers who are working in the field with South Vietnamese troops.

The additional airpower includes a squadron of U.S. Air Force C123 transport planes and a group of Army C119 cargo carriers.

MORE AIR POWER
The airpower is designed to increase the mobility and flexibility of Vietnamese troops in responding more quickly to guerrilla raids.

Officials said the increases in American manpower and airpower committed to the Viet Nam war were the result of decisions taken earlier and did not represent any new strategy.

President Johnson will make whatever new decisions are required following his talks with Taylor. Secretary of State Dean Rusk and other high officials have made clear since the Nov. 3 election that the United States has no intention of pulling out of Southeast Asia.

Most of the presidential advisers appear to have boiled down the alternatives for the future to either a continuation of present policies or an expansion of the war effort into North Viet Nam to relate to the increasing

Such group hauling is not authorized in the company's permit, the commission said.

THREE KILLED IN ACCIDENT

EAGLEVILLE, Pa. (AP)—Three persons were killed early Thursday when their automobile slammed into a pole on Route 22 at Eagleville, Montgomery County, police said.

The victims were a Norristown, Pa., couple, Robert Pittman, 27, his wife, Anna, 23, and Vernon Picot, 35, of Washington, D.C. Police said Picot was registered at the Perkiomen Bridge Hotel, Collegeville.

Police reported their automobile ran off the road, hit one pole, then skidded about 100 feet and smashed into a second pole. Pittman was believed to have been the driver, police said.

A second car, traveling behind the Pittman vehicle, swerved to avoid the collision, injuring its driver and one passenger.

The driver, Zachariah Anderson, 59, was treated at Montgomery County Hospital, Norristown, for a cut ear and leg.

Cutback Of Military Bases Will Not Impair Fighting Strength Of Armed Forces

By ELTON C. FAY

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara is of the firm opinion that the closing of hundreds of military installations, great and small, will not diminish the fighting ability of the armed forces.

Over the past four years 574 U.S. military bases around the world—the great majority of them in this country—have been closed or their activities sharply cut back. Thursday, he tackled another 95 to the list.

INCREASE EFFECTIVENESS

These bases "have outlived their usefulness for military missions," are obsolete and unnecessary, the Pentagon chief says in explaining his program. By closing them, he says, "we can achieve economies and at the same time increase our combat effectiveness and our military power."

In announcing the latest cutback, McNamara referred to three categories of bases directly related to operations of the armed forces—ships, bomber bases and missile launching sites—and told why he thought changing conditions and new tactics and technology had rendered them obsolete and surplus.

NEW MISSILES

New and better missiles are replacing the first models, rushed into firing position in the initial frantic race to match and exceed Soviet missile strength. The liquid-fueled, surface-based Atlas and Titan I ICBMs are being shelved and their launching sites closed because of the "very sizable inventory" of improved Titan II and Minuteman missiles.

The Air Force has about 650 Minuteman missiles in launching silos, eventually may build this to about 1,000.

The Defense Department has been cutting back the number of older B47 medium bombers for some years, with their missions taken over by the somewhat more recent B52 heavies, of which the Air Force has about 630. So the bases from which the B47s operated are no longer needed. And more B52s are being assigned to fewer bases.

B-52 POTENTIAL

The Pentagon strategic warfare experts claim that the nuclear firepower that can be delivered by the B52 fleet more than offsets the original combination of B47s and B52s.

McNamara and the special board he created to make a study decided that the present operating fleet of about 860 Navy ships could be repaired and maintained and new ships built with fewer government-owned, high-cost yards. Therefore, they picked two big yards to be closed, two others to be merged. These, combined with private yard facilities, are considered adequate for the Navy's operations and shipbuilding programs.

SHIPYARD ECONOMY

The cutback in shipyards reflects essentially McNamara's drive for efficiency and economy rather than a belief that the day of warships is waning.

McNamara and the Navy have reiterated repeatedly the belief that one of the nation's best strategic deterrent systems exists in the Navy's new Polaris submarine force. The missile-launching submarines are rated

COLTS SHOULD WRAP UP FIRST DIVISION TITLE

By JACK HAND

Associated Press Sports Writer

Baltimore should wrap up its first division title since 1959 by beating Los Angeles Sunday and Cleveland should inch closer to the Eastern title in the National Football League by upsetting Green Bay.

The two division races in the NFL could be over by nightfall Sunday if the St. Louis Cardinals stumble before Philadelphia and the Browns and Colts win.

Beware of mud. A wave of upsets last week dropped the old Baltimore Colts to 67-36-6 (42-24-4) in the NFL, 25-12-2 in the AFL.

Here goes again with picks through Thanksgiving Day. (All games Sunday afternoon unless otherwise noted.)

NFL

Baltimore 28, Los Angeles 20

virtually invulnerable to detection. On static today are 18 of these ships, with 23 more to come.

The attack carriers, turning over the primary strategic mission to the Polaris submarines, continue to hold a high role in limited-war tactical operations, along with the cruisers and destroyers protecting them and the supply and maintenance craft keeping them at sea.

CUTS RADAR STATIONS

Changing styles of warfare also put another group of installations into the obsolete or surplus list.

McNamara struck 16 more Air Defense Command radar stations from the category of necessary installations.

U.S. strategists feel that the danger of massive attack by manned bombers has diminished drastically, thus reducing the need for radar stations to detect them. Instead, the emphasis has turned to ballistic-missile detection and tracking.

Colts blasting for 10th straight and first title since 1959 aren't going to let Rams stop them although Raymond Berry doubtful. Johnny Unitas will pick on Ram deep defense with bombs but runners will find heavy going against L.A. front four. Colts won earlier 35-20.

Cleveland 23, Green Bay 21 — Browns are rolling with five in a row. Packers shaken up by 49ers with Bart Starr, Paul Hornung, Jim Taylor bruised.

Washington 21, Dallas 18 — Possible loss of Tony Liscio weakens Cowboys' offensive line. Dallas should be able to move on ground but may be vulnerable to the Sonny Jurgensen bomb. Dallas won first meeting 24-18 in Texas.

Minnesota 21, Detroit 20 — That Viking gang is tough. Ask the Colts. Lions beat them earlier in mud 24-20. Milt Plum has sore elbow and probable loss of J. D. Smith won't help pass blocking.

GIANTS, CARDS, LIONS

New York 21, Pittsburgh 14 — This is the club that almost ruined Y. A. Tittle in earlier 27-24 Steelers victory. Pittsburgh hurting without Jim Kelly.

Philadelphia 24, St. Louis 21 — Cards in trouble with Bob DeMarco, Jerry Stovall, Joe Childress and Bob Reynolds on doubtful list. Tim Brown and Ollie Matson sub-par for Eagles.

Chicago 28, San Francisco 21 — Two teams that live by the pass with no running attacks. Rudy Bukich was hot last week against the Rams. George Mira upset the Packers when he finally got a chance to start.

Detroit 24, Chicago 14 (Thanksgiving Day) — Lions' pass defense closes down Bears' air game. They may be up to here in mud or snow. Wayne Walker's field goals could be decisive. Detroit won first meeting 10-0.

AFL

Boston 31, Denver 14 (Friday night) — Patriots fresh from upset of previously unbeaten Buffalo. Broncos caught Jets at low tide. Could be repeat of earlier 39-10 Boston win.

Kansas City 28, Houston 21 — Oilers sink for eighth straight defeat. Chiefs won handily earlier 28-7 but must watch out for

George Blanda's passes. New York 24, Oakland 20 — The Jets have their troubles on the road but they handled the Raiders easily at home, 35-13, with Matt Snell romping.

San Diego 28, Buffalo 24 (Thanksgiving Day) — Chargers coming on with six straight, catch Bills in letdown after first defeat. Even with Cookie Gilchrist, Bills' attack can't match Chargers.

Sowers, Mr. and Mrs. Charles

S. Taylor, and children, Randall, Kevan and Melissa.

Kathryn and Debbie Sites participated in the entertainment in a tap dance and vocal duet. The Luther League of Zion Lutheran Church held a barn party and a hay ride Saturday evening. They met at the church Sunday evening to repair toys. Hostesses were: Mary Ann Kittinger and Pamela J. Taylor. The group plans to attend a retreat November 27 and 28. Sponsors of the Luther League are Mr. and Mrs. James Kittinger.

10 LOSERS AT POLLS GUESTS AT BANQUET

SAVANNAH, Ga. (AP) — Political losers were winners for a night in this port city, taking the spotlight at an extraordinary banquet staged in their honor.

The affair was such a success that even the winners went home smiling, although they spent three hours Thursday night seated at ordinary tables among the 600 guests.

The losers occupied the head table, of course, basking in the applause and the laurels denied them at the polls in the Nov. 3 general election.

There were 10 losers and 26 winners — 16 won uncontested races — in the Savannah area in local, state and congressional races. All but 7 attended "The Losers Are Winners" banquet sponsored by the Savannah Area Chamber of Commerce.

It was the brain child of the Chamber's Public Affairs Committee, headed by Chairman S. Joseph Ward. Some said the occasion was unique, at least in cities frequented by banqueting politicians.

The losers certainly never saw anything like it before. All 10 of them — 8 Republicans, 1 Democrat, and 1 independent — sat tall in their chairs in the flag-decked hall.

Each was introduced, arose to thunderous applause, and then sat down.

Then the winners had a moment of group glory. Their names were read off, and they all stood up together.

That was about it except for presentation of "Democracy in Action" plaques to losers and winners alike.

They read: "As responsible citizens of Savannah and Chatham County, for making democracy work in our community, you are hereby cited, commended and congratulated for your desire to help maintain our system of government — of, by and for the people."

The losers and the winners didn't have anything to say, publicly, and that was a shock to other politicians present.

But Dr. Carl S. Winters of Chicago discussed the free-enterprise system and described the unusual banquet as one of "healing significance."

HOUSTON (AP) — Some 650 persons turned out Thursday night for an appreciation dinner for Johnny Keane, former manager of the world champion St. Louis Cardinals and now the 1965 manager of the New York Yankees.

Keane, a Houston resident, was presented with several gifts including a new station wagon, which was given by the sponsoring Rotary Clubs of Houston.

Send Paper Crane To JFK Children

TOKYO (AP) — Ten thousand paper cranes are on their way from Tokyo to Caroline and John F. Kennedy Jr. in New York.

The cranes were shipped today by Taeko Matsuyama and Reiko Sato, 17-year-old high school girls in Nagano Prefecture of north central Japan. They started making the cranes last June, and have devoted almost all their spare time to the work.

The girls said they hope the cranes would be a good Christmas present for Caroline and John.

RECRUIT MANY FOR WORK IN COPPER MINES

BUTTE, Mont. (AP) — This so-called richest hill on earth is providing a richer life for hundreds of miners who saw work in the coal fields of the Appalachian country play out in the past decade.

From Alabama, Kentucky, Tennessee, Virginia and other states they have come to work in Butte's copper mines. Never before, said a Labor Department spokesman, have workers been recruited on such a large scale to move elsewhere for jobs.

About 450 are at work in underground mines of the Anaconda Co., a firm whose vast program to develop the mines had been beset by a shortage of skilled workers.

Unable to get all the help it needed, the company, along with state and federal employment agencies, turned to the Appalachian country where shutdown coal mines spurred unemployment.

For the workers and the company the project has turned out well.

"They're good. They're important to us and we need them," said a spokesman for Anaconda.

It means a steady paycheck for the workers.

"I jumped at the chance to work in Montana," said Lawrence Persinger, 42 of Crab Orchard, W. Va. "The idea of permanent work interests me more than anything else. We didn't have year-round employment in West Virginia."

MOVES FAMILY

Persinger began work as a shaftman last February and later brought his wife and three boys to Butte. "My boys like it well. They've already done their share of hunting and fishing in the surrounding mountains," he said. Persinger had worked in coal mines for 11 years.

Robert Farell of Grundy, Va., was a foreman in a coal mine for 19 years prior to 1959. He came to Butte in January 1963 and now is a shift boss. He says he likes the job and the people and above all is back at work on the craft he knows.

After training to adapt to copper mining, the men go to work for wages averaging \$21.84 daily.

Some of the men who made the westward trek got help from the company in the form of interest-free loans, low-priced housing and proper work clothing.

The men had to pass physical examinations in their home area, have at least three years of mining experience and be 21-45 years old. All made the move at their own expense.

A nationwide harvest of 141.2 million bushels of apples is expected for 1964 by the Agriculture Department. This is 13 per cent greater than the 1963 crop.

100 ARE DEAD IN TYPHOON

MANILA (AP) — The Philippine Constabulary estimated today that Typhoon Louise left more than 100 persons dead in Surigao del Norte Province, on northeastern Mindanao Island.

More than 100 dead were estimated in one Surigao village on the coast, and many more deaths were feared in remote areas.

A constabulary report from the province said the storm, which had winds up to 56 miles an hour, destroyed all buildings in Surigao town.

From Mindanao the typhoon moved northwest across Negros and Cebu toward the main island of Luzon. But its force dropped rapidly and it was downgraded to a tropical storm, with maximum winds of 59 miles.

FIRE IN DORM OUSTS 70 MEN

Seventy freshmen were made homeless on the Susquehanna University campus today by fire that swept a men's dormitory building.

No injuries were reported.

The fire was discovered by students about 11 p.m. Thursday. It was not until 5 a.m. to today that it was fully extinguished.

University officials said the blaze originated in the basement of 69-year-old Gustavus Adolphus Hall, second oldest building on the campus. It quickly spread through the three-story brick structure.

Many students lost personal belongings, firemen reported. There was no immediate estimate of the over-all damage.

The dispossessed students were housed overnight mostly in private homes of the area, and in nearby motels. A few were accommodated in other residence halls.

A permanent housing arrangement will have to be worked out for those routed from the burned dormitory, officials said.

HATFIELD HAS RUN MILE ON PUNT RETURNS

By BILL SIMMONS
Associated Press Writer
FAYETTEVILLE, Ark. (AP) — Ken Hatfield is no Peter Snell, but he has run a mile — returning football kicks.

The 5-foot-11, 170-pound senior from Helena, Ark., gives Southwest Conference coaches the punting rigors, all except Arkansas Coach Frank Broyles, that is.

Broyles stands on the sidelines each Saturday, smilingly relishing the luxury of having Hatfield on his side.

LEADS U. S. AGAIN

"Every time Kenny takes a punt I just know — I really know — that he's going to go all the way," Broyles says. "I realize he can't do it every time, but I'm really a little disappointed when he doesn't make it. He's got me convinced of how good he is."

Hatfield has been good enough to lead the nation in punt returns this season — his second in a row. He has gained 499 yards on 28 punt returns this year. His career total for punt and kickoff returns is 1,785 yards, or 75 feet more than a mile.

Handsome, dark-haired, square-jawed and soft-spoken, Hatfield tells newsmen to praise his blockers.

"THEY DO WORK"

"They do the work," he says. "I just let them lead me home." Modesty fits Hatfield well because he lacks the usual talents that make a football hero. He isn't fast. He isn't fast. He doesn't kick. He doesn't throw. He just plays defensive safety and breaks teams with his returns.

Against Texas, which then was No. 1, Hatfield took an Ernie Koy kick at his 19, trotted
